Women ' s physiology evolved to aid reproduction, not to reduce disease. Any trait—however detrimental to post-reproductive health—is preserved in the next generation if it increases the chances of having offspring who will survive and reproduce. For this reason, the author argues, many common diseases are especially difficult for women to prevent.

Traditional beliefs about meeting goals are fundamentally flawed. Goal setting tactics assume goals are measurable, achieved, and final-all attributes that describe objectives, not goals. Unlike objectives, which are by their very nature self-contained, goals are immeasurable. A goal is realized, not achieved, and must be maintained to remain successful. What good is the goal of losing weight if you don't keep the weight off? Losing twenty pounds is an objective. Keeping that twenty pounds from returning is a goal, which must be maintained to remain a success. In *Three Your Life*, entrepreneur and accidental expatriate David R. Sanders applies this important distinction between goals and objectives. Beginning with attitude, outlook, and perception, Sanders builds a solid foundation on which to effect major life changes. Learn to differentiate between needs, wants, and desires-and discover how focusing on desires causes everything else to fall into place. To realize desires, Sanders reevaluates conventional thinking on prioritizing tasks, using a three-part daily structure that ensures you're working toward a productive and fulfilling life. A fresh new approach to goal setting, *Three Your Life* offers the opportunity to realize your goals, achieve your objectives, and understand the difference between the two.

Born into privilege and wealth, Murlidhar Devidas Amte was a maverick who wanted to live life to the fullest. He realized early on that he had to live, not for himself, but for others - or else all his privilege, position and superior personal qualities would be mere tinsel. The pioneering commune at Anandwan, where those affected by leprosy could live with dignity and pride; the Bharat Jodo marches across the length and breadth of India to promote national unity and harmony; the decade-long vigil by the Narmada river in solidarity with those at the receiving end of state-sponsored environmental devastation - Baba Amte did this and much more, coping the whole time with a crippling spinal degenerative disease. The countless lives transformed by three generations of the Amte family are shining testimonials to the magnitude of Baba Amte's vision, and the indomitable spirit that made that vision real. With in-depth conversations with Baba, and interviews with many of his close friends and family, this biography is equally a record of the collective memory of those who have known him best. What emerges is an intimate portrait of one of the few individuals of our times who have embodied the cherished ideals of compassion and selfless service.
