~~Psychology: The Study of the Soul? | Psychology Today~~

To borrow a post-Rankian metaphor, the soul was created in the big bang of irresistible psychological force colliding with immutable biological fact-our will to live forever against death. The collision creates a spark in our individual and social consciousness which through history has become both consolation and inspiration: the immortal soul.

The traditional Chassidic response to this question is that we do not know, nor can we know. Whereas the manifestations of the soul are knowable, the essence is beyond the limits of our comprehension. The essence of the soul, like the being of God, is inaccessible to the human mind, and is not a subject for human enquiry.

~~The Psychology of the Soul—Chassidic Thought~~

The soul is neither mind nor matter, but the relationship between the two, as such, it is a synthesis of material energy, described by the R3, creative intelligence, and spiritual energy called by...

Etymology and definitions. The word psychology derives from Greek roots meaning study of the psyche, or soul ([psych](#) , "breath, spirit, soul" and - [-logia](#), "study of" or "research"). The Latin word psychologia was first used by the Croatian humanist and Latinist Marko Marulić in his book, *Psichiologia de ratione animae humanae* in the late 15th century or early 16th century.

~~Psychology—Wikipedia~~

Soul or psyche (Ancient Greek: [psykh](#) , of [psýchein](#), "to breathe") comprises the mental abilities of a living being: reason, character, feeling, consciousness, qualia, memory, perception, thinking, etc. Depending on the philosophical system, a soul can either be mortal or immortal.

~~Soul—Wikipedia~~

scientific psychology starts with Aristotle (who first approached the problem of dreams "psychologically"), but pre- and non-scientific psychology have been, and still are, "soul science" and the source of all psychology. To know psychology one has to know its object, the soul.

~~Psychology and the Soul—JSTOR~~

The word "psychology" was formed from two Greek words. The first, psyche, originally meant "breath" but later acquired the additional meaning "soul", because breathing was thought to indicate that the soul had not yet left the body, and later still (during the seventeenth century) broadened further in meaning to include "mind".
