Eureka Dry Tech Dry Cabinet | Dry Box | Desiccator ...

I was wondering, I bought myself a 20L cabinet. In the manual it says for cameras and lenses to set it at around 45-55%. I set it at 45%. I left my cabinet for a couple of days closed. I checked today, and I see on the digital display it ' s at 30%. Isn ' t it supposed to stay at 45% if I set it at that?

Dry cabinet, how do you know if it is working correctly ...

When the humidity in the cabinet becomes lower than the setting value, the cooling water will deactivated automatically .Then, the frost on the collecting board refreezes to water, which is absorbed and given off naturally when flowing through guide holes, thus achieving dehumidification effect. Cooling dehumidification system: It makes use of ...
