The Boeing 757 is an American narrow-body airliner that was designed and built by Boeing Commercial Airplanes. The then-named 7N7, a twinjet successor for the 727 (a trijet), received its first orders in August 1978. The prototype completed its maiden flight on February 19, 1982 and it was FAA certified on December 21, 1982. Eastern Air Lines placed the original 757-200 in commercial service on ...

The 757 (designated "7N7" during initial development) was designed by Boeing to replace the Boeing 727 and complement the Boeing 767 on thin routes. Boeing originally offered the airlines a stretched, re-engined 727-200, known as the 727-300, but this never received enough interest from the airlines to proceed.
