Glamour is one of the most tantalizing and bewitching aspects of contemporary culture - but also one of the most elusive. The aura of celebrity, the style of the fashion world, the vanity of the rich and beautiful, and the publicity-driven rites of café society are all imbued with its irresistible magnetism. But what exactly is glamour? Where does it come from? How old is it? And can anyone quite capture its magic? Stephen Gundle answers all these questions and more in this first ever history of the phenomenon, from Paris in the tumultuous final decades of the eighteenth century through to Hollywood, New York, and Monte Carlo in the twentieth and twenty-first centuries, from Napoleon to Marlene Dietrich and Marilyn Monroe, from Beau Brummell to Gianni Versace. Throughout, the book captures the excitement and sex appeal of glamour while exposing its mechanisms and exploring its sleazy and sometimes tragic underside. As Gundle shows, while glamour is exciting and magnetic, its promise is ultimately an illusion that can only ever be partially fulfilled.

This book highlights research-based case studies in order to analyze the wealth created in the world ' s largest mergers and acquisitions (M&A). This book encourages cross fertilization in theory building and applied research by examining the links between M&A and wealth creation. Each chapter covers a specific case and offers a focused clinical examination of the entire lifecycle of M&A for each mega deal, exploring all aspects of the process. The success of M&A are analyzed through two main research approaches: event studies and financial performance analyses. The event studies examine the abnormal returns to the shareholders in the period surrounding the merger announcement. The financial performance studies examine the reported financial results of acquirers before and after the acquisition to see whether financial performance has improved after merger. The relation between method of payment, premium paid and stock returns are examined. The chapters also discuss synergies of the deal-cost and revenue synergies. Mergers and acquisitions represent a major force in modern financial and economic environment. Whether in times of boom or bust, M&As have emerged as a compelling strategy for growth. The biggest companies of modern day have all taken form through a series of restructuring activities like multiple mergers. Acquisitions continue to remain as the quickest route companies take to operate in new markets and to add new capabilities and resources. The cases covered in this book highlights high profile M&As and focuses on the wealth creation for shareholders of acquirer and target firms as a financial assessment of the merger ' s success. The book should be useful for finance professionals, corporate planners, strategists, and managers.

Programmed cell death (PCD) plays pivotal roles in tumor progression, cancer therapeutics and resistance of tumor cells to therapy. This book examines the mechanisms involved in mediating and regulating PCD in cancer. It also provides a detailed indication of the utility of PCD in cancer therapy. The book features chapters on the current and future of RNA interference in therapeutics and Pathways involved in Stem Cell Survival and Death.

Part green-lifestyle guide, part popular science, How Bad Are Bananas? is the first book to provide the information we need to make carbon-savvy purchases and informed lifestyle choices and to build carbon considerations into our everyday thinking. The book puts our decisions into perspective with entries for the big things (the World Cup, volcanic eruptions, the Iraq war) as well as the small (email, ironing, a glass of beer). And it covers the range from birth (the carbon footprint of having a child) to death (the carbon impact of cremation). Packed full of surprises — a plastic bag has the smallest footprint of any item listed, while a block of cheese is bad news — the book continuously informs, delights, and engages the reader. Solidly researched and referenced, the easily digestible figures, statistics, charts, and graphs (including a section on the carbon footprint of various foods) will encourage discussion and help people to make up their own minds about their consumer choices.

Attempts at electric powered flight date to well before the 19th century. Battery weight and low energy output made it impractical until the 1990s, when the advent of lightweight materials, more efficient solar power, improved engines and the Li-Po (lithium polymer) battery opened the skies to a wide variety of electric aircraft. The author describes the diverse designs of modern electric flying machines—from tiny insect-styled drones to stratospheric airships—and explores developing trends, including flying cars and passenger airliners.

Its undeniable that society's reliance on the quick-and-easy fix is causing mayhem for human health, our planet, and future generations. Naturally Inspired is the perfect resource for those on a mission to live a natural life free from avoidable toxins. By replacing a few store-bought products with DIY alternatives, not only will you improve your overall health and wellbeing, you'll also save money and reduce waste. With her gentle and realistic approach, Krissy Ballinger will help you reduce your bodys toxic burden with recipes for common day-to-day essentials like deodorant, sunscreen, magnesium oil, dishwasher tablets, cleaning sprays and much more. Its easy to be inspired by the simplicity of the recipes and the stunning photography, along with the inclusion of thermal appliance methods and seemingly endless ideas on how to use essential oils. Natural DIY has never been so easy and rewarding.

100 Things to Do in Boston Before You Die serves up this author's subjective list of the best things to do in this town. Glide serenely on the Swan Boats. Cheer on the Red Sox at Fenway Park. Take an off-the-radar trek through Chinatown and sample fantastically authentic Chinese food. Paint with seals at New England Aquarium or draw in the galleries at the Museum of Fine Arts. These 100 awesome ideas immerse you in Boston culture and history, while giving you helpful tips and themed itineraries. What are you waiting for? Go explore, eat and otherwise have fun!
