Interactive Problems, Computer Networking: A Top Down Approach

Description. &> Computer Networking continues with an early emphasis on application-layer paradigms and application programming interfaces (the top layer), encouraging a hands-on experience with protocols and networking concepts, before working down the protocol stack to more abstract layers. This book has become the dominant book for this course because of the authors' reputations, the precision of explanation, the quality of the art program, and the value of their own supplements.

Kurose & Ross, Computer Networking: A Top-Down Approach ...

layer—is not the best approach for a modern course on computer networking. A Top-Down Approach Our book broke new ground 12 years ago by treating networking in a top-down manner—that is, by beginning at the application layer and working its way down toward the physical layer. The feedback we received from teachers and students
