NEW YORK TIMES BESTSELLER • “Imaginative and fulfilling . . . an addictive contemporary crime procedural.”—Michael Connelly, *The New York Times* Book Review (Editors’ Choice) Caleb Carr, the author of *The Alienist* and *The Angel of Darkness*, returns with a contemporary, edge-of-your-seat thriller featuring the brilliant but unconventional criminal psychologist Dr. Trajan Jones. In the small town of Surrender in upstate New York, Dr. Jones, a psychological profiler, and Dr. Michael Li, a trace evidence expert, teach online courses in profiling and forensic science from Jones’s family farm. Once famed advisors to the New York City Police Department, Trajan and Li now work in exile, having made enemies of those in power. Protected only by farmhands and Jones’s unusual “pet,” the outcast pair is unexpectedly called in to consult on a disturbing case. In rural Burgoyne County, a pattern of strange deaths has emerged: adolescent boys and girls are found murdered in gruesome fashion. Senior law enforcement officials are quick to blame a serial killer, yet their efforts to apprehend this criminal are peculiarly ineffective. Jones and Li soon discover that the victims are all “throwaway children,” a new state classification of young people who are neither orphans, runaways, nor homeless, but who are abandoned by their families and left to fend for themselves. Two of these throwaways, Lucas Kurtz and his older sister, Ambyr, cross paths with Jones and Li, offering information that could blow the case wide open. As the stakes grow higher, Jones and Li must not only unravel the mystery of how the throwaways died but also defend themselves and the Kurtz siblings against shadowy agents who don’t want the truth to get out. Jones believes the real story leads back to the city where both he and Dr. Kreizler did their greatest work. But will Jones and Li be able to trace the case to New York before they fall victim to the murderous forces that stalk them? Tautly paced and richly researched, *Surrender*, New York brings to life the grim underbelly of a prosperous

nation—and those most vulnerable to its failings. This brilliant novel marks another milestone in Caleb Carr’s triumphant literary suspense career. Praise for *Surrender*, New York “[A] page-turning thriller . . . For maximum enjoyment: surrender, reader.”—The Wall Street Journal “Every word of fiction Carr has produced seems to have been written in either direct or indirect conversation with Sir Arthur Conan Doyle. . . . [Surrender, New York] allows Carr to deploy his indisputable gift for the gothic and the macabre, and the pursuit is suspenseful and believable.”—USA Today “[A] long-awaited return.”—O: The Oprah Magazine “[A] superb mystery . . . [that moves] at a swift and often terrifying pace. As in *The Alienist*, Carr triumphs at every twist and turn.”—Providence Journal “Edgar Allan Poe would have understood this book and hailed it a masterpiece. . . . A terrific story with a great setting and a very modern social message.”—The Globe and Mail “[An] engrossing mystery.”—Library Journal “A compulsive read . . . Carr once again delivers a high-stakes thriller featuring a new band of clever, determined outcasts.”—Booklist (starred review) “Carr’s many fans will find this well worth the wait.”—Kirkus Reviews

Human Fatigue Risk Management: Improving Safety in the Chemical Processing Industry teaches users everything they need to know to mitigate the risk of fatigued workers in a plant or refinery. As human fatigue has been directly linked to several major disasters, the book explores the API RP 755 guidelines that were released to reduce these types of incidents. This book will help users follow API RP 755 and/or implement a fatigue risk management system in their organization. Susan Murray, a recognized expert in the field of sleep deprivation and its relation to high hazard industries, has written this book to be useful for HSE managers, plant and project managers, occupational safety professionals, and engineers and managers in the chemical processing industry. As scheduling of shifts is an important factor in reducing fatigue and accident rates, users will learn the benefits of more frequent staff rotation and how to implement an ideal scheduling plan. The book goes beyond API RP 755, offering more detailed understanding of why certain measures for managing fatigue are beneficial to a company, including examples of how theory can be put into practice. It is a simple, digestible book for managers who are interested in addressing human factor issues at their workplace in order to raise safety standards. Covers sleep, sleep disorders, and the consequences of fatigue as related to high-hazard industries Helps improve safety standards at the plant level Provides information on how to comply with API RP 755 and related OSHA 29CFR1910 articles Relates fatigue and human performance to accidents, helping readers make a case for implementing a human fatigue risk management policy, which, in turn, prevents loss of property and life

[Siren Everlasting Classic ManLove: Erotic Alternative Futuristic Paranormal Romance, M/M, vampires, shape-shifters, cross-dressing, HEA] When Pan Thyr is arrested for a crime he didn't commit, he's determined to take down the man responsible for his torture. But being on the run makes it hard to prove his innocence. He is not only fighting to clear his name, but prove to Igorian Hunchback that they are meant to be together. Igorian refuses to give in to his desires where Pan is concerned. Although the man is a walking wet dream, Igorian has been taught that vampires don't mate outside their race. It is a lesson drilled into him from rebirth. When wanted posters go up and the two must run for their lives, Igorian learns that fighting against the attraction he feels for Pan is futile. Can the two clear their names and the misconceptions taught to Igorian, or will the Ministry of Paranormal Affairs doom them both to a death sentence before Igorian finds out what it means to purr for a panther shifter? ** A Siren Erotic Romance
