maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.

A new collection that captures the austere serenity of the Southwest American desert. Award-winning, Paris-based poet Alice Notley's adventurous new book is inspired by the life of Marie, a woman who resided in the dump outside Notley's hometown in the Southwestern desert of America. In this poetical fantasy, Marie becomes the ultimate artist/poet, composing a codex-calligraphy, writings, paintings, collage-from materials left at the dump. She is a "culture of one." The story is told in long-lined, clear-edged

poems deliberately stacked so the reader can keep plunging headlong into the events of the book. Culture of One offers further proof of how Notley "has freed herself from any single notion of what poetry should be so that she can go ahead and write what poetry can be" (The Boston Review).
