This Maintenance Guide outlines the minimal services, labor and materials necessary to provide the standard maintenance required to meet OEM (PowerTeam) recommendations for standby and base load power plant operations of our EMD Engine Driven Generator Sets to ensure satisfactory engine operation and economical

Scheduled Maintenance - A F Ohab

The EMD 645 is a family of diesel engines that was designed and manufactured by the Electro-Motive Division of General Motors. While the 645 series was intended primarily for locomotive, marine and stationary engine use, one 16-cylinder version powered the 33-19 "Titan" prototype haul truck designed by GM's Terex division.. The 645 series was an evolution of the earlier 567 series and a ...
