In this powerful, unforgettable memoir, acclaimed novelist Darin Strauss examines the far-reaching consequences of the tragic moment that has shadowed his whole life. In his last month of high school, he was behind the wheel of his dad's Oldsmobile, driving with friends, heading off to play mini-golf. Then: a classmate swerved in front of his car. The collision resulted in her death. With piercing insight and stark prose, Darin Strauss leads us on a deeply personal, immediate, and emotional journey—graduating high school, going away to college, starting his writing career, falling in love with his future wife, becoming a father. Along the way, he takes a hard look at loss and guilt, maturity and accountability, hope and, at last, acceptance. The result is a staggering, uplifting tour de force. Look for special features inside, including an interview with Colum McCann.

One of the finest living writers in the English language, V. S. Naipaul gives us a tale as wholly unexpected as it is affecting, his first novel since the exultantly acclaimed *A Way in the World*, published seven years ago. *Half a Life* is the story of Willie Chandran, whose father, heeding the call of Mahatma Gandhi, turned his back on his brahmin heritage and married a woman of low caste—a disastrous union he would live to regret, as he would the children that issued from it. When Willie reaches manhood, his flight from the travails of his mixed birth takes him from India to London, where, in the shabby haunts of immigrants and literary bohemians of the 1950s, he contrives a new identity. This is what happens as he tries to defeat self-doubt in sexual adventures and in the struggle to become a writer—strivings that bring him to the brink of exhaustion, from which he is rescued, to his amazement, only by the love of a good woman. And this is what happens when he returns with her—carried along, really—to her home in Africa, to live, until the last doomed days of colonialism, yet another life not his own. In a luminous narrative that takes us across three continents, Naipaul explores his great theme of inheritance with an intimacy and directness unsurpassed in his extraordinary body of work. And even as he lays bare the bitter comical ironies of assumed identities, he gives us a poignant spectacle of the enervation peculiar to a borrowed life. In one man's determined refusal of what he has been given to be, Naipaul reveals the way of all our experience. As Willie comes to see, "Everything goes on a bias. The world should stop, but it goes on." A masterpiece of economy and emotional nuance, *Half a Life* is an indelible feat of the imagination.

Jill Ciment weaves an unforgettable tale of survival, compassion, and courage, in this haunting recollection of a child surrounded by confusion and madness, and her struggle to find an identity. *Half a Life* traces Jill Ciment's family from Toronto to the California desert—a landscape and culture so alien to her father that the last vestiges of sanity leave him. As madness engulfs him he becomes increasingly brutal and the family, grasping at survival, throws him out the door. Having no understanding that he has done anything wrong, he first lives in his car at the end of the driveway, waiting to be invited back in, before exiting completely from their lives. Poor and fatherless, Ciment spends the years from age fourteen to seventeen, as a gang girl, a professional forger, a stripper, a corporate spy, and finally, a high school dropout who by age eighteen has seduced her art teacher, a man nearly three decades her senior and bluffed her way into college in an effort to shape a future. Ciment is cutting, insightful and clearly unapologetic as she details the confusion and bravado of a child heroine whose dreams and tenacity allow her finally, to create the life she has been so desperately seeking.

The National Book Award–winning coming-out memoir, “One of the most complex, moral, personal, and political books to have been written about gay life” (LA Weekly), Paul Monette grew up all-American, Catholic, overachieving . . . and closeted. As a child of the 1950s, a time when a kid suspected of being a “homo” would routinely be beaten up, Monette kept his secret throughout his adolescence. He wrestled with his sexuality for the first thirty years of his life, priding himself on his ability to “pass” for straight. The story of his journey to adulthood and to self-acceptance with grace and honesty, this intimate portrait of a young man’s struggle with his own desires is witty, humorous, and deeply felt. Before his death of complications from AIDS in 1995, Monette was an outspoken activist crusading for gay rights. Becoming a Man shows his courageous path to stand up for his own right to love and be loved. This ebook features an illustrated biography of Paul Monette including rare images and never-before-seen documents from the Paul Monette papers of the UCLA Library Special Collections.

In 1939, fifteen-year-old Thomas sails on a German ship bound for Cuba with more than nine hundred German Jews expecting to be granted safe haven in Cuba.

When you find the courage to change at midlife, Angeles Arrien teaches, “a miracle happens.” Your character is opened, deepened, strengthened, softened. You return to your soul’s highest values. You are now prepared to create your legacy: an imprint of your dream for our world - a dream that can fully come true in *The Second Half of Life*. Working with images, poetry, metaphors, and other forms of symbolic language from diverse world cultures, Dr. Arrien introduces us to the Eight Gates of Initiation. By mastering their lessons and gifts, you harvest the meaning and purpose of your life and come into spiritual maturity. With *The Second Half of Life*, she takes you step-by-step through each gate to deepen your most valuable relationships, reclaim your untended creative talents, and shift your focus from ambition to meaning to grow into the exceptional elder you’ve always imagined you would one day become.

Listed as one of the 100 best books on Africa, *Life and a Half* was Sony Labou Tansi's response to the death of close friends during a bloody military and political crackdown in Congo. The novel takes place in an imaginary African country run by the latest in a series of cannibalistic dictators who has captured Martial, the leader of the opposition, and his family. Though shot, knifed, butchered, and bled, Martial's spirit lives on to guide his followers in their fight against the dictators. Facing censorship, Tansi insisted that his book was a fable and that if he were ever given the opportunity to write about real events, he would be much more direct rather than follow the torturous paths of a novel. This crisp translation by Alison Dundy maintains the fast-paced action and biting satiric tone of the original.

Practical advice on how to thrive in the second half of your life, based on scientific studies. The sixth book in the bestselling *100 Simple Secrets* series. What do people who relish the second half of their lives do differently than those who dread getting older? Sociologists, therapists and psychiatrists have spent entire careers investigating the ins and outs of successful aging, yet their findings are inaccessible to ordinary people, hidden in obscure journals to be shared with other experts. Now the international bestselling author of *The 100 Simple Secrets* series has collected the most current and significant data from more than a thousand of the best scientific studies on the second half of life. These findings have been boiled down to one hundred essential ways to find and maintain joy, health, and satisfaction every day of your life. Each one is accompanied by a true story showing the results in action. The Baby Boomers are hitting retirement age. This upbeat, light approach will appeal to the enormous market of citizens grappling with the effects of becoming 'senior', looking to discover the positive benefits of aging beyond discount tickets at the movie theatre. Books about aging well continue to sell year in and year out. The Simple Secrets approach will stand out among the heavier self-help/psychology titles and will without a doubt become an affordable impulse and gifty mainstay in this category. A good inexpensive gift for parents and grandparents.

What does it really mean to be a grown up in today's world? We assume that once we “get it together” with the right job, marry the right person, have children, and buy a home, all is settled and well. But adulthood presents varying levels of growth, and is rarely the respite of stability we expected. Turbulent emotional shifts can take place anywhere between the age of thirty-five and seventy when we question the choices we’ve made, realize our limitations, and feel stuck—commonly known as the “midlife crisis.” Jungian psycho-analyst James Hollis believes it is only in the second half of life that we can truly come to know who we are and thus create a life that has meaning. In *Finding Meaning in the Second Half of Life*, Hollis explores the ways we can grow and evolve to fully become ourselves when the traditional roles of adulthood aren’t quite working for us, revealing a new way of uncovering and embracing our authentic selves. Offering wisdom to anyone facing a career that no longer seems fulfilling, a long-term relationship that has shifted, or family transitions that raise issues of aging and mortality, *Finding Meaning in the Second Half of Life* provides a reassuring message and a crucial bridge across this critical passage of adult development.
