equipment managers' meetings. Appendix A contains the final program and appendix B, the workshop participant list.

Completely updated with new listings and statistics throughout, this comprehensive resource goes beyond the current literature on local government performance measurement and provides benchmarks on more than 40 key topics against which performance can be assessed in all areas of operation. "Ammons has assembled a remarkable volume of benchmark data for a comprehensive range of municipal government services. Municipal Benchmarks will be of considerable help for municipalities in laying the groundwork for an accountable government." - Harry Hatry, The Urban Institute "I am delighted to see that ideas for advancing our industry are alive and thriving. Ammons's collection does an incredible service to every municipal manager in the country, and perhaps the world. These benchmarks clearly set standardized ways of looking at measuring the performance of municipal service delivery." - Ted Gaebler, City Manager, Rancho Cordoba, CA (co-author of Reinventing Government)

The story is about how the author overcame the challenges in his life. Since he was a child he has already seen the cruelty and injustices of man. He has lived in poverty in the third world (Philippines) and he knows how it looks like to live under privileged and being suppressed. Many people who went through the hardship he experienced have just given up and made no attempt to improve their situation. He did not lose hope. Instead he strived to overcome all those challenges. He acquired his education on his own to improve his livelihood. And he overcame suppression by his own method. When he was young he would usually react violent each time someone shows disrespect of his rights or his friend's or fellow-men's rights. But he has developed a more constructive and effective way of correcting or improving the situation. He learned to communicate his likes and dislikes and he and many others have benefited from it.
