This book is about the author's amazing trip across six continents and the world economy and society. Every place he stopped on the trip, Rogers talked to businessmen, bankers, investors and regular people. He learned reams of information that you'd never learn from reading the financial pages of any periodical. Delivers a thrilling account of the journey of a lifetime and provides tips that would enable you to pay for a trip just like it.

Drive . . . and grow rich! The bestselling author of Investment Biker is back from the ultimate road trip: a three-year drive around the world that would ultimately set the Guinness record for the longest continuous car journey. In Adventure Capitalist, legendary investor Jim Rogers, dubbed "the Indiana Jones of finance" by Time magazine, proves that the best way to profit from the global situation is to see the world mile by mile. "While I have never patronized a prostitute," he writes, "I know that one can learn more about a country from speaking to the madam of a brothel or a black marketer than from meeting a foreign minister." Behind the wheel of a sunburst-yellow, custom-built convertible Mercedes, Rogers and his fiancée, Paige Parker, began their "Millennium Adventure" on January 1, 1999, from Iceland. They traveled through 116 countries, including many where most have rarely ventured, such as Saudi Arabia, Myanmar, Angola, Sudan, Congo, Colombia, and East Timor. They drove through war zones, deserts, jungles, epidemics, and blizzards. They had many narrow escapes. They camped with nomads and camels in the western Sahara. They ate silkworms, iguanas, snakes, termites, guinea pigs, porcupines, crocodiles, and grasshoppers. Best of all, they saw the real world from the ground up—the only vantage point from which it can be truly understood—economically, politically, and socially. Here are just a few of the author's conclusions:
• The new commodity bull market has started.
• The twenty-first century will belong to China.
• There is a dramatic shortage of women developing in Asia.
• Pakistan is on the verge of disintegrating.
• India, like many other large nations, will break into several countries.
• The Euro is doomed to fail.
• There are fortunes to be made in Angola.
• Nongovernmental organizations (NGOs) are a scam.
• Bolivia is a comer after decades of instability, thanks to gigantic amounts of natural gas.
Adventure Capitalist is the most opinionated, sprawling, adventurous journey you're likely to take within the pages of a book—the perfect read for armchair adventurers, global investors, car enthusiasts, and anyone interested in seeing the world and understanding it as it really is.

The next bull market is here. It's not in stocks. It's not in bonds. It's in commodities - and some smart investors will be riding that bull to record returns in the next decade. Before Jim Rogers hit the road to write his best-selling books Investment Biker and Adventure Capitalist, he was one of the world's most successful investors. He co-founded the Quantum Fund and made so much money that he never needed to work again. Yet despite his success, Rogers has never written a book of practical investment advice - until now. In Hot Commodities, Rogers offers the low-down on the most lucrative markets for today and tomorrow. In late 1998, gliding under the radar, a bull market in commodities began. Rogers thinks it's going to continue for at least fifteen years - and he's put his money where his mouth is: In 1998, he started his own commodities index fund. It's up 165% since then, with more than \$200 million invested, and it's the single-best performing index fund in the world in any asset class. Less risky than stocks and less sluggish than bonds, commodities are where the money is - and will be in the years ahead. Rogers's strategies are simple and straightforward. You can start small - a few thousand dollars will suffice. It's all about putting your money into stuff you understand, the basic materials of everyday life, like copper, sugar, cotton, corn, or crude oil. Once you recognize the cyclical and historical trading patterns outlined here, you'll be on your way. In language that is both colourful and accessible, Rogers explains why the world of commodity investing can be one of the simplest of all - and how commodities are the bases by which investors can value companies, markets, and whole economies. To be a truly great investor is to know something about commodities. For small investors and high rollers alike, Hot Commodities is as good as gold . . . or lead, or aluminium, which are some of the commodities Rogers says could be as rewarding for investors.

Profiting from China without getting burned is currently an obsession with the international investment community. The estimated size of the Chinese economy has just been revised upwards, making it the 4th largest in the world behind the US, Japan and Germany, and ahead of the UK but the idea that investing in China is a sure-fire, get-rich-quick investment story is dangerously misleading.
* The author of the bestselling Investment Biker, Adventure Capitalist, and Hot Commodities, is providing a book that provides a window into what will soon be the most vital, most lucratiivemarket of our time: China.
* While the Chinese economy has had an annual average growth of 9.4percent since 1978, and despite the ongoing speculation aboutChina's future, its stock market is now emerging from a six-yearlow.
* As the Chinese economy continues to lumber toward a free marketsystem - and as the Chinese government inevitably unpegs itscurrency and opens its stock market to more foreign investment,Rogers foresees an abundance of opportunities for investors.
* In this book, he shows readers not only how to take advantageof China's coming dominance - what, where, how, and when to buy - buthow China will impact individual companies, markets, and economiesaround the world.
* Nobody with blue eyes has ever made money investing in China,"the old saying goes. Jim Rogers aims to disprove this adage. Jim Rogers co-founded the Quantum Fund and retired at age 37. Sincehen, he has served as a sometime professor of finance at ColumbiaUniversity's business school, and as a media commentator. Heappears twice a week on Fox Business News, and is the author ofthree immensely successful books.

Draws on the author's personal experiences to offer insight into and advice on the financial world, drawing on a belief that Southeast Asia and China are the dominant drivers of the world economy.

When I was a boy, my father often pulled me aside to convey lessons intended to build what we generally refer to as "character". Often his advice was very simple — work hard, think for yourself, do right by others — but I believe those lessons provided the foundation for everything that has followed in my life. Now that I'm a dad myself, I wanted to put them down in one place, with examples of my own experiences, as a guide to life, adventure, and investing, both for my young daughters and for anyone seeking success in his or her chosen field. I hope that parents will be inspired to give this book to their children, and vice versa, as many of the lessons that I have learned apply not just to young people but to all adults—for example, question everything, never follow the crowd, and beware of boys! What a lovely, lovely book! Though I've read all you've written, this one really touched me. It is, of course, a love letter to your daughters, which is not only a wonderful, meaningful thing to do, but it was filled with exactly the kind of advice all fathers should give. Your new book will stay on my shelf for a long, long time, and I'll be giving it to my own kids to read. --Nicholas Sparks, author of The Notebook, Dear John, and The Last Song

At the turn of the millennium, American-born Paige Parker and investment guru Jim Rogers spend three years—1,101 days to be exact—driving over six continents in their "sunburst yellow" coupe and trailer, ultimately setting a Guinness World Record. During the epic journey, Paige's world view is turned upside down, eventually leading her and her family to their ideal home in Singapore. On the road trip, she meets women from every walk of life, inspiring monks in China, boy soldiers in Angola and oppressive patriarchy in too many countries, yet she walks away with a profound faith in humankind. She now wants to pass the lessons from the road to her two daughters, to women everywhere and to all intrepid travellers.

FEATURES EXCLUSIVE INTERVIEW with SUBRATA ROY EVERYTHING YOU WANTED TO KNOW ABOUT SUBRATA ROY AND SAHARA INDIA PARIWAR, BUT WERE AFRAID TO ASK... Sahara: The Untold Story is based on painstaking research to demystify India's most secretive and largely unlisted conglomerate, the Sahara India Pariwar. It also delves into the group's ongoing legal battle with the market regulator. Entrepreneur Subrata Roy, the guardian angel of the group, whose feet are touched by everybody in the Pariwar, wants to reach out to a million lives and feels impeded and shuttered in by regulations. So the clash with the regulators was inevitable. But when a regulator slams one door, maverick Roy opens another. This play has been on since 1978, when Sahara was set up. Roy is well known for glamour and his association with film stars, cricketers and politicians. He exudes patriotism, with a statue of Bharat Mata (the presiding deity of the group) on a chariot driven by four fierce-looking lions adorning his headquarters in Lucknow. He is the Robin Hood of a country where only 35% of the adult population has access to formal banking services. This India and its millions of illiterate poor depositors stand in awe and admiration of him. But does he also exploit them? Do these poor people actually keep money with him or are they fronting for others? EXCERPT FROM THE SAHARA INDIA PARIWAR DISCLAIMER The book at best can be treated as a perspective of the author with all its defamatory content, insinuation and other objections, which prompted us to exercise our right to approach the court of law in order to save the interest of the organization and its crores of depositors and 12 lakh workers. TamalBandyopadhyay, a deputy managing editor of Mint, is one of the most respected business journalists in India. Tamal has kept a close watch of the financial sector for over a decade and a half and has had a ringside view of the enormous changes in Indian finance and banking over this period. His first book, A Bank for the Buck, released by P Chidambaram in November 2012, has been a non-fiction bestseller.

Cycling as a way of life and mode of transportation is on the rise in city after city around the world. For those looking to dip their proverbial toes into the waters of urban cycling the prospect at times can be rather intimidating. What kind of bike should I ride? A skinny-wheeled high-end road bike? A fixie? A chunky city commuter bike? A department store bike? How about fashion? Do I have to wear brightly colored skin-tight Lycra outfits? Can I just wear normal clothes? How do I lug my gear around? The Bohemian Guide to Urban Cycling takes the reader into the world and workings of cycling in the city to uncover the essentials to how to join in on the cycling revolution. Your bicycling guide on this journey is a card-carrying bohemian living in Portland. By using the bike-crazy city of Portland as the backdrop, this book covers all of the basics needed to bike comfortably in the city and to know what the heck you're talking about ... from bike selection to fashion to bike lanes to gentrification and more. After reading this you'll know precisely what to ride, how to ride, what to wear, and how to talk like an insider. Well, maybe not, but it'll still be a fun journey together. But this book is more than about urban-cycling fashion and high-end bikes. It also plunges headlong into conversations about mobility, equity, race, and justice. If there is going to be a book about all-things cycling in the city it must delve into these uncomfortable topics in order to develop a more holistic view of urban cycling. The bottom line must be to affirm all kinds of people pedaling through the streets of our cities on anything that rolls.
