marvel at what lies at its journey's end.

In 1969 history was made when the first humans stepped on the moon. Back on earth, one woman was running the numbers that ensured they got there and back in one piece. As a child, Katherine Johnson loved maths. She went on to be one of the most important people in the history of space travel. Discover her incredible life story in this beautifully illustrated book complete with narrative biography, timelines and facts.

A new wartime classic from two legends of children's literature! Michael Morpurgo and Michael Foreman have teamed up with the British Legion to tell a new story inspired by the history of the poppy. When John McCrae wrote his famous poem "In Flanders Field" among the trenches of war-torn Belgium, neither he nor a local village girl who saves a discarded draft of it could know what enormous power that poem would have on generations to come.

A coming-of-age story about learning to celebrate yourself -- and teaching the world to recognize you, too -- perfect for fans of R. J. Palacio's Wonder! "This glimpse into the world of a young autistic girl is astonishingly insightful and honest. Tally's struggles to 'fit in' are heart-wrenching, and her victories are glorious." -- Ann M. Martin, Newbery Honor and New York Times bestselling author of Rain Reign Things Tally is dreading about sixth grade:-- Being in classes without her best friends-- New (scratchy) uniforms-- Hiding her autism Tally isn't ashamed of being autistic -- even if it complicates life sometimes, it's part of who she is. But this is her first year at Kingswood Academy, and her best friend, Layla, is the only one who knows. And while a lot of other people are uncomfortable around Tally, Layla has never been one of them . . . until now. Something is different about sixth grade, and Tally now feels like she has to act "normal." But as Tally hides her true self, she starts to wonder what "normal" means after all and whether fitting in is really what matters most. Inspired by young coauthor Libby Scott's own experiences with autism, this is an honest and moving middle-school story of friends, family, and finding one's place.

A heartwarming story about a friendship-seeking moon that also commemorates the extraordinary 50th anniversary of the Apollo 11 mission! Now a New York Times and Wall Street Journal bestseller! From high up in the sky, the Moon has spent her whole life watching Earth and hoping for someone to visit. Dinosaurs roam, pyramids are built, and boats are made, but still no one comes. The Moon can't help but wonder...will friends ever come visit her? Until one day a spaceship soars from Earth...and so does her heart. Learn about the spaceflight that first landed humans on the moon through this heartwarming story about friendship! Filled with adorable illustrations and charming text, this moon book for kids is a must-have for parents and teachers alike searching for new preschool solar system books and astronaut books for toddlers. Why readers love Moon's First Friends: An educational and heartwarming story about the first moon landing told from the unique perspective of the Moon itself! Educational back matter includes out-of-this world facts about the moon, space flight, and the individuals who made the mission possible A scannable QR code allows readers to listen to the exciting countdown to Apollo 11's liftoff
