Winner of the 2010 National Book Critics Circle Award for Biography How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people ' s lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy? This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them “ essays, ” meaning “ attempts ” or “ tries. ” Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog ' s ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. The Essays was an instant bestseller and, over four hundred years later, Montaigne ' s honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de La Boétie and with his adopted “ daughter, ” Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, “ how to live? ”

A preeminent physicist unveils a field-defining theory of the origins and purpose of life. Why are we alive? Most things in the universe aren't. And everything that is alive traces back to things that, puzzlingly, weren't. For centuries, the scientific question of life's origins has confounded us. But in *Every Life Is on Fire*, physicist Jeremy England argues that the answer has been under our noses the whole time, deep within the laws of thermodynamics. England explains how, counterintuitively, the very same forces that tend to tear things apart assembled the first living systems. But how life began isn't just a scientific question. We ask it because we want to know what it really means to be alive. So England, an ordained rabbi, uses his theory to examine how, if at all, science helps us find purpose in a vast and mysterious universe. In the tradition of Viktor Frankl's *Man's Search for Meaning*, *Every Life Is on Fire* is a profound testament to how something can come from nothing.

For the first time ever, the Toltec wisdom from the Ruiz family is bound together in a book of Daily Meditations. Readers are invited on a six-month journey of daily lessons with don Miguel Ruiz Jr. that are designed to inspire, nourish, and enlighten adherents as they travel along the Toltec path. Drawing on years of apprenticeship under his father and grandmother, don Miguel Ruiz Jr. shares Toltec lessons on Love,

Faith, Agreements, and most importantly: Awareness. The purpose of each meditation is to guide readers into a deeper understanding of his or her self, as well as the world in which we live. In the introduction to the book, don Miguel Ruiz Jr. reminds readers that progress on the Toltec path is not measured by the acquisition of things, status, or even ideas, but rather the complete and total realization that everything in the world is perfect, exactly the way it is at this moment. “ Love is accepting ourselves just the way we are, with all of our flaws and our ever-changing belief system. You are nothing else but who you are. You are not the person you were a year ago. You are not the person you will be in a year. You aren't even the person you think you are. You simply are, and that must be enough. ” —don Miguel Ruiz Jr. This book will have special appeal to those already familiar with his father ' s books The Four Agreements, The Mastery of Love, and The Fifth Agreement, as well as don Miguel Ruiz Jr. ' s own book, The Five Levels of Attachment. It also makes a wonderful gift.

"Youth on Fire is a powerful message that all young people must hear. Thaw So not only brings real-life experience, but his wisdom is beyond his years. Thaw So preaches to the masses in church, yet offers this intimate reading of how he stays on fire! I strongly recommend youth pastors assign this book to all of their youth so that they can be on fire for God!" -Kevin LaChapelle, EdD, MPA (Author of Please God, Don't Let My Badge Tarnish, PowerMentor: The Art of Mentoring, Overcoming Adversity, and The Inspirational Life of Jelly Poe.) "To find the finest gold, it requires us to dig deeper! The finest gold is found in the deep of the ground! Likewise, the deeper we dig into the Word of God, we will find the living water! That living water is from the cross! By reading this book, the Holy Spirit will help us understand!" -Pastor Aung Aung, Lead Pastor IFGF
