Written by 3M's winning team of meeting management experts - considered the best in the business at helping companies prioritize and streamline business meetings - Mastering Meetings will save you time, expense, and redundancy by providing answers to such questions as: Is this meeting really necessary? Who should attend? When and where should the meeting be held? How long should the meeting be? What is the best room arrangement? How can you most effectively present your ideas to the group? Full coverage also is given to the latest techniques and equipment for creating dynamic multimedia presentations, as well as inexpensive, high-impact visuals - charts, tables, graphs, and more - using PCs, plain paper copiers, and infrared transparencies. You'll learn what makes a good visual and how to use visuals to get messages across lucidly and emphatically.

Why do so many people go on about queuing? Have we always been obsessed with traffic? And why do so many of us now eat lunch at our computers - al desko? We spend our days catching buses and trains, writing emails, shopping, queuing...But we know almost nothing about these activities. Exploring the history of these subjects as they come up during a typical day, starting with eating breakfast and ending with sleeping, Joe Moran tells a story about hidden social and cultural changes in Britain since the Second World War. Drawing on his academic research on everyday life, but writing with wit and lucidity for a popular audience, he shows that we know less about ourselves than we think...

Meetings are an inevitable and often unwelcome aspect of the working day. They figure heavily in all walks of life and create a forum for providing information, holding discussions, and making decisions. If they are run well they are a really valuable tool in running your organisation and progressing projects. If run badly they can seem like no more than a time-wasting irritant to the participants. Whether you hold meetings in your office or attend international summits, the meeting is a place where certain etiquette is essential. How to run a meeting, behave in a meeting, construct minutes, and Chair meetings are all essential skills for anyone wishing to move projects forward, forge a career in business or even run their own business. So, even if you are only a participant in frequent meetings this book will show you how to get the most out of them and ensure that they are a building block of success. From issuing invitations to taking the minutes, or even chairing a meeting, everything is covered.

This first volume to analyze the science of meetings offers a unique perspective on an integral part of contemporary work life. More than just a tool for improving individual and organizational effectiveness and well-being, meetings provide a window into the very essence of organizations and employees' experiences with the organization. The average employee attends at least three meetings per week and managers spend the majority of their time in meetings. Meetings can raise individuals, teams, and organizations to tremendous levels of achievement. However, they can also undermine effectiveness and well-being. The Cambridge Handbook of Meeting Science assembles leading authors in industrial and organizational psychology, management, marketing, organizational behavior, anthropology, sociology, and communication to explore the meeting itself, including pre-meeting activities and post-meeting activities. It provides a comprehensive overview of research in the field and will serve as an invaluable starting point for scholars who seek to understand and improve meetings.

BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals, entrepreneurs and corporate executives. Every month, BLACK ENTERPRISE delivers timely, useful information on careers, small business and personal finance.

This book chronicles and champions the development, changes, and challenges faced by the global celebrations industry for event planners. New interviews are included with experienced event leaders to give a better understanding of the field. New chapters are included on green events, corporate social responsibility, and theoretical case studies. Event measurement, evaluation, and assessment topics are integrated throughout a number of the chapters. Over 200 new Web resources and appendices show how to save money, time, and improve the overall quality of an event. Event planners will also learn how technology may be harnessed to help them improve their events' financial, quality, environmental and other strategic outcomes.

"This book offers you a gift more precious than money—it will enable you to say in six minutes what used to take you twenty." —Say It in Six Say It in Six is the freshest, fastest, most timely book on making presentations since the invention of the stopwatch. In crisp words by Ron Hoff and wonderful illustrations by Barrie Maguire, Say It in Six will help take the clutter and claptrap out of meetings that waste millions of dollars in time every working day. The book gets down to business in a hurry: " Example: You'll learn how to "dump the junk" that makes most speeches about as buoyant as the Titanic. " You'll learn a "high wire" structure that starts every speech with a crackle and closes with a 30-second bid for interaction. " You'll be interacting with the author on almost every page. Example: Ron Hoff takes a first-class 12-minute speech by a speaker you'll recognize—cuts it down to six minutes—and asks you to vote for "long" or "short" on the basis of which one communicates the very same message. " If you've ever had a bad dream about Traffic Court, you'll find that Say It in Six gives you a six-minute plan that will usher you right past the judge without denting your wallet or taunting your blood pressure. " Maybe, best of all, Say It in Six could help you hold your job through a sudden siege of downsizing. Here's a book that moves fast—that knows what it's against (wasting time)—and knows what it's for (communications that illuminate smart decisions). If you read Ron Hoff's first book, I Can See You Naked, you know this isn't going to be some ordinary, run-of-the-mill, stone-gray book on making presentations. It's fast, visual, and fun. Like a winning presentation should be.

A Success Best Book of 2015 Business psychologist Tony Crabbe outlines a unique three-step approach to combating one of the modern life's great problems: being too busy. BUSY is divided into four digestible sections—Mastery, Differentiation, and Engagement—that will teach readers how to switch from managing time to managing attention, how to transition toward a career strategy that doesn't hinge on productivity, how to think differently about success by re-engaging with what matters, and how to create the impetus, energy, and clarity to put all these changes into effect. Crabbe draws on entertaining psychological studies to show why we're getting it wrong at the moment and to develop a fresh new approach to taking back one's life from chaotic outside forces. Rarely has a book been more timely in both its scope and in its immediate impact.

Now more than ever, librarians need good communication skills. They are no longer unseen collectors, classifiers, and cultural guardians. Information professionals are doing more public speaking at conferences, in meetings, classes, book talks and countless other situations, but many of them dislike, even fear, the thought of getting up in front of a group of people and giving a presentation. Librarians and other information professionals can find in this work help in overcoming their hesitation. Part one offers basic principles for better speech preparation and delivery, discussing such topics as the importance of good listening skills to being a good speaker, doing the necessary research beforehand, applying organizational skills to a presentation, engaging an audience, practicing a presentation before actually giving it, and putting oneself at ease, among others. Part Two discusses the specific situations in which librarians often have to communicate, including interviews, interpersonal communication, library instruction, meetings and presentations to large groups.
