Palaeography: reading old handwriting - The National Archives

Even if you were taught growing up to write with cursive handwriting, it can still be tricky to read!

Here are five tips to help you tackle those difficult to read handwritten documents that will inevitably cross your path on your discovery of your own family history: 1. Read the entire document quickly to get the context. Even if you feel like you don't understand anything on the page, your eyes will start to get familiar with the handwriting, and you will begin to recognize some

5 Tips for Deciphering Old  
Handwriting | Legacy Tree

...

Step 1, Make copies. To protect the primary source, never work with the original document when possible. Scan and make several copies of the document. This way you can handle the document without fear of damaging it and you can make notations directly on the page.

Scanning will also allow you to enlarge portions of the document that may be particularly tricky to decipher. Step 2, Grab a dictionary. Make sure you
