Early 20th century American labor and working-  
class history is a subfield of American  
social history that focuses attention on the  
complex lives of working people in a rapidly  
changing global political and economic  
system. Once focused closely on institutional  
dynamics in the workplace and electoral  
politics, labor history has expanded and  
refined its approach to include questions

During the early history of Oxford, its  
reputation was based on theology and the  
liberal arts. But it also gave more-serious  
treatment to the physical sciences than did  
the University of Paris: Roger Bacon, after  
leaving Paris, conducted his scientific  
experiments and lectured at Oxford from 1247  
to 1257. Bacon was one of several influential  
Franciscans at the university during the 13th
