This is the autobiography of a Cuban refugee who emigrated to the United States in 1962 and decided to make Boston, Massachusetts, his home his family's and the future generations. He still resides there.He starts his life chronicle the day he, after much hassle with the abusive customs officers at Havana's International Airport who do everything they can to ruin his life, finally lands in Miami, Fl.With no knowledge of the English language, but a lot of hope and ambition, this young man who as a child suffered a mild case of troubling Tourette's Syndrome, starts by telling us his parents' history and dedication in a small town in Cuba and his own growth as a student abused intellectually for his ideas at a Jesuit high school.While in Boston, he becomes the first case of a Latino Boston Banking executive, community leader and eventually a much desired position as a College Professor of Information Systems, holder of six college degrees, one in Freudian psychoanalysis, and also a bilingual newspaper columnist and writer and publisher of ten electronic books at Amazon's Kindle.All, while raising a family of two children and five grandchildren.This book is not only good reading for Cuban-American refugees, but for their children and grandchildren who are still curious about their roots.

This social and political satire reads like an homage to classic South American novelists

Adam Feinstein's book is the first English-language biography of the Nobel Prize-winning Chilean poet Pablo Neruda. Relating Neruda's remarkable life story and delving into the literary legacy of the man Gabriel Garcia Marquez called "the greatest poet of the twentieth-century-in any language," Feinstein uncovers the details of this icon's artistic output, political engagement, friendships with a pantheon of important 20th-century artistic and political figures,

and many loves.

Alphabetically arranged entries in five chronological volumes focus on individual authors, works, and topics related to multiethnic American literature.

This book shows that understanding Cuba's past and heritage is fundamental to shed light upon its future trajectories. It examines the role that cultural heritage played in the construction of a sense of national identity in post-colonial Cuba, from the Cuban independence from Spain in 1898 up until Cuban-American rapprochement in 2014. The book illustrates how political and ideological shifts have influenced ideas about heritage and how, in turn, heritage has been utilized by different social actors and classes in the reproduction of their status, the spread of new ideologies, and the consolidation of political regimes.

The Cuban revolution of 1959 initiated a significant exodus, with more than 700,000 Cubans eventually settling in the United States. This community creates a major part of what is now known as the Cuban diaspora. In *Cuban-American Literature of Exile*, Isabel Alvarez Borland forces the dialogue between literature and history into the open by focusing on narratives that tell the story of the 1959 exodus and its aftermath. Alvarez Borland pulls together a diverse array of Cuban-American voices writing in both English and Spanish--often from contrasting perspectives and approaches--over several generations and waves of immigration. Writers discussed include Guillermo Cabrera Infante, Reinaldo Arenas, Roberto Fernandez, Achy Obejas, and Cristina Garcia. The author's analysis of their works uncovers a movement from narratives that reflect the personal loss caused by the historical fact of exile, to autobiographical writings that reflect the need to search for a new identity in a new language, to fictions that dramatize the authors' constructed Cuban-American personae. If read collectively, she argues, these sometimes dissimilar texts appear to be in dialogue with one another as they all document a people's quest to reinvent themselves outside their nation of origin. *Cuban-American Literature of Exile* encourages readers to consider the evolution of Cuban literature in the United States over the last forty years. Alvarez Borland defines a new American literature of Cuban heritage and documents the changing identity of an exiled literature.

The "story of a family, a ... portrait of a town, and one boy's quest to save both"--Amazon.com.

"Hello beautiful. I am Popeye." In 1998 I met Jhon Jairo Vel á squez V á squez—alias "Popeye"—lieutenant to the Medellín Cartel's leader, Pablo Escobar Gaviria. Our first encounter was at the high security yard of the Modelo Prison in Bogotá, Colombia. I visited the prison frequently as a journalist for RCN TV. I was always conducting interviews and speaking to the inmates, uncovering news about what was really happening inside the prison. At that time, stories about confrontations between guerrilla and paramilitary factions were everyday news. You could often hear shots inside the prison as the different sides fought for control. I had always wanted to meet one of the members of the Medellín Cartel. I was curious to know who they were, what they looked like, and what these men, who belonged to the most powerful drug cartel that has ever existed in Colombia, were thinking. At the high security yard I was able to talk with two of them. The most notorious was Jhon Jairo Vel á squez V á squez. "Hello beautiful. I am Popeye." The man who sat in front of me stared at me. His pale skin reflected the six years he had been in prison; in fact, it looked as if he had never once stepped outside. Popeye smiled at me with curiosity while his cold eyes examined me from head to toe. We were introduced by another inmate, Ángel Gait á n Mahecha, a man accused of paramilitarism and homicide. My first impression was surprise and curiosity; I also examined him from head to toe. He wasn't quite six feet tall. His slim

body and the smile on his face almost put me at ease. I thought this man couldn't possibly frighten anyone, and yet I couldn't forget the number of homicides in which he had been involved. I wanted to see into the mind of the man who planned and participated in the most horrible homicides that the cartel had carried out in their war against the state.

DEFINING FREEDOM IN EXILE Between 1960 and 1962 more than 14,000 Cuban children escaped Fidel Castro's communist regime as part of an airlift known as Operaci ó n Pedro Pan. LORENZO PABLO MART Í NEZ was one of these children. In *CUBA, ADI Ó S: A Young Man's Journey to Freedom*, Mart í nez vividly recounts his participation in a program that bridged two different cultures and achieved great political significance over the years. At eighteen, he forfeits a music scholarship to Prague to accept an unknown future of exile in America without knowing the language, money to pursue an education, or family to help. Plagued by guilt around his sexual identity and having to care for a younger brother, Mart í nez forges ahead to become the composer of his future; later he opens the door that enable his sisters and parents to join him after a harrowing sojourn in Mexico City. With the same determination, he attends college and pursues a music education, obtaining a master's degree from the Manhattan School of Music, then a doctorate from Columbia University. Even after his music compositions are published and performed on television and at international festivals, Mart í nez feels restless and spiritually unfulfilled. Until, that is, he is able to define the true music of his freedom. *CUBA, ADI Ó S* is a poignant, thoughtful account of one boy's survival and self-acceptance, written with unflinching honesty and a wry humor.

A happy, middle-class childhood lived in the shadows of sweeping social change and oncoming revolution -- such was the experience of novelist Pablo Medina. In this memoir, Medina revisits his curious double world, recalling the pre-revolutionary Cuba of his first twelve years, 1948-1960. His recollections move easily from his childhood adventures to warm remembrances of family and friends to his growing awareness of the social conflicts that would ultimately send his family into exile in the United States. Medina also draws on the memories of his elders to extend his memoir back to the Cuban War of Independence and forward through the twentieth century to the fall of the Batista regime, the victory of the Revolution in 1959, and the family's growing disillusionment with the Castro regime. This first paperback edition also includes a new Epilogue describing Medina's visit to Cuba in 1999.
