In applied linguistics, although the nature and prevalence of qualitative and quantitative methods have already been investigated (Davis 1995; Norton 1995; Lazaraton 2002, 2003, 2005; Benson et al. 2009), little research has addressed the integration of the two methods (see D\u00f3rnyei 2007). The aim of this Forum contribution is to present a number of reflections on the utilization of mixed methods research in applied linguistics.
