The Fate of Africa by Martin Meredith is a impressively
through (688 pages) and yet highly readable account of the
history of Africa - all of Africa, including North Africa - since
independence, beginning (after a good introductory
chapter on general African history) with the independence
of the Gold Coast (becoming Ghana) in 1957 all the way up
until events in the mid 2000s, including such issues as the
genocide in Rwanda and Burundi, the civil wars in Liberia

~~The Fate of Africa: A History of the Continent Since ...~~

The Fate of Africa is a lively and accessible history of Africa over the last fifty years. Narrative histories of individual countries with a focus on people and key events make for easy reading, though the content itself is mostly rather depressing. Meredith's approach is broadly chronological and geographical, but not strictly so.

After decades of mismanagement and corruption, most African states have become hollowed out. They are no longer instruments capable of serving the public good. Indeed, far from being able to provide aid and protection to their citizens, African governments and the vampire-like politicians who run them are regarded by the populations they rule as yet another burden they have to bear in the struggle for survival. ”
