The two royals who would become known as the mysterious –Princes in the Tower– were Edward, Prince of Wales and his younger brother Richard, the Duke of York. The prince and the duke were 12 and 9 respectively when their father, King Edward IV, died suddenly in 1483, leaving his young son to become Edward V of England.

Princes In The Tower: The Mystery Of Edward IV's Missing Sons

Edward V and his younger brother Richard of Shrewsbury, Duke of York, were the Princes in the Tower who disappeared after being sent to heavily guarded royal lodgings in the Tower of London. Responsibility for their deaths is widely attributed to Richard III, but the lack of any solid evidence and conflicting contemporary accounts allow for other possibilities.

Edward V of England - Wikipedia

Main article: Princes in the Tower The Duke of York was sent to the Tower of London, then a royal residence, by King Richard III in mid-1483, where he was held with his brother. They were sometimes seen in the garden of the Tower, but there are no known sightings of them after the summer of 1483.

Richard of Shrewsbury, Duke of York - Wikipedia

When Edward V and his younger brother, Richard of Shrewsbury, disappeared into the Tower of London in 1483 – where, many believe, they were murdered – the finger of blame for their fate soon alighted on their uncle, Richard III. And there it has stayed for the past 500 years.

Did Richard III Really Kill The Princes In The Tower ...

The childlike, helpless, Lancastrian Henry VI was found dead in the Tower in 1471, after more than a decade of conflict between the rival royal Houses of Lancaster and York. It was said he was killed by grief and rage over the death in battle of his son, but few can have doubted that Edward IV ordered Henry's murder.

The Princes in the Tower BY DAVID ROSS, EDITOR When Edward IV died on 9 April 1483, England was nearing the end of the tediously long conflict known as the Wars of the Roses. England needed a period of peace and a stable government, but it was not going to get it.

The Princes in the Tower - Britain Express

disappearance of the Princes in the tower. Why has history judged Richard to be guilty of their murder? Introduction In 1483, the Yorkist king, Edward IV, died suddenly, leaving his young son Edward V to inherit the throne. The late king's brother, Richard, Duke of Gloucester, was made Lord ...

Princes in the Tower | Bartleby

This video tells the story of two princes, who disappeared whilst staying at the Tower of London in 1483. It is described and illustrated by children.

"Comprehensive and insightful, *THE PRINCES IN THE TOWER* offers a unique perspective on a profound mystery." Faye Kellerman Despite five centuries of investigation by historians, the sinister deaths of the boy king Edward V and his younger brother Richard, Duke of York, remain one of the most fascinating murder mysteries in English history. Did Richard III really kill the young princes, as is commonly believed, or was the murderer someone else entirely? Carefully examining every shred of contemporary evidence as well as the dozens of modern accounts, Weir reconstructs the entire chain of events leading to the double murder to arrive at a conclusion Sherlock Holmes himself could not dispute.

The disappearance of two boys during the summer of 1483 has never been satisfactorily explained. They were Edward, Prince of Wales, nearly thirteen at the time, and his brother, Richard of York, nearly ten. With their father, Edward IV, dying suddenly at forty, both boys had been catapulted into the spotlight of fifteenth-century politics, which was at once bloody and unpredictable. Thanks to the work of the hack historians who wrote for Henry VII, the first Tudor, generations grew up believing that the boys were murdered and that the guilty party was their wicked uncle, Richard, Duke of Gloucester. Richard crowned himself King of England in July 1483, at which time the boys were effectively prisoners in the Tower of London. After that, there was no further sign of them. Over the past 500 years, three men in particular have been accused of the boys' murders - Richard of Gloucester; Henry Tudor, Earl of Richmond; and Henry Stafford, Duke of Buckingham. The evidence against them would not stand up in a court of law today, but the court of history is much less demanding and most fingers remain pointed squarely at Richard of Gloucester. This book takes a different approach, the first to follow this particular line of enquiry. It is written as a police procedural, weighing up the historical evidence without being shackled to a particular camp. The supposition has always been made that the boys were murdered for political reasons. But what if that is incorrect? What if they died for other reasons entirely? What if their killer had nothing to gain politically from their deaths at all? And, even more fascinatingly, what if the princes in the Tower were not the only victims?

When was the story of the murder of the "princes in the Tower" put out? What bones were found at the Tower of London, and when? Can DNA now reveal the truth?

The story of the Princes in the Tower is well known: the grim but dramatic events of 1483, when the twelve-year-old Edward Plantagenet was taken into custody by his uncle, Richard of Gloucester, and imprisoned in the Tower of London along with his younger brother, have been told and retold hundreds of times. The true events of that year remain shrouded in mystery, and the end of the young princes' lives are an infamous part of the War of the Roses and Richard III's reign. Yet little about their lives is commonly known. *Following the Footsteps of the Princes of the Tower* tells the story in a way that is wholly new: through the places where the events actually unfolded. It reveals the lives of the princes through the places they lived and visited. From Westminster Abbey to the Tower of London itself, and from the remote English castles of Ludlow and Middleham to the quiet Midlands town of Stony Stratford, the trail through some of England's most historic places throws a whole new light on this most compelling of historical dramas.

The murder of the Princes in the Tower is the most famous cold case in British history. Traditionally considered victims of a ruthless uncle, there are other suspects too often and too easily discounted. There may be no definitive answer, but by delving into the context of their disappearance and the characters of the suspects Matthew Lewis examines the motives and opportunities afresh as well as asking a crucial but often overlooked question: what if there was no murder? What if Edward V and his brother Richard, Duke of York survived their uncle's reign and even that of their brother-in-law Henry VII? There are glimpses of their possible survival and compelling evidence to give weight to those glimpses, which is considered alongside the possibility of their deaths to provide a rounded and complete assessment of the most fascinating mystery in history.

There are glimpses of their possible survival and compelling evidence to give weight to those glimpses, which is considered alongside the possibility of their deaths to provide a rounded and complete assessment of the most fascinating mystery in history.

□ The fate of Richard III's two nephews, Edward V and Richard of York, who disappeared after his coronation in 1483, has remained controversial centuries after Thomas More's history and Shakespeare's play laid the blame on their conniving uncle. Some later writers, unconvinced of the king's guilt, have tried (with little success) to portray him as an innocent victim of Tudor propaganda, pointing instead to a number of unlikely culprits, including Henry Tudor and the Duke of Buckingham. This book sifts through the available evidence about the fate of the two boys. The author examines the facts, discusses who may or may not have had information and offers a reasoned solution to the question, What really happened to the two princes?

Elizabeth Woodville is undoubtedly a historical character whose life no novelist would ever have dared invent. She has been portrayed as an enchantress; as an unprincipled advancer of her family's fortunes

and a plucky but pitiful queen in Shakespeare's histories. She has been alternatively championed and vilified by her contemporaries and five centuries of historians, dramatists and novelists, but what was she really life? In this revealing account of Elizabeth's life David Baldwin sets out to tell the story of this complex and intriguing woman. Was she the malign influence many of her critics held her to be? Was she a sorceress who bewitched Edward IV? What was the fate of her two sons, the 'Princes in the Tower'? What did she, of all people, think had become of them, and why did Richard III mount a campaign of vilification against her? David Baldwin traces Elizabeth's career and her influence on the major events of her husband Edward IV's reign, and in doing so he brings to life the personal and domestic politics of Yorkist England and the elaborate ritual of court life.
