the same suspension parts as the Hilux  
Surf/4Runner and FJ Cruiser for similar  
years. There is a shorter three-door version  
of the 120-series, with a 125-code instead  
of 120. Engines are the same, most  
features are the same; just the 1KZ-TE  
was only available in five-door version.

I'd take it down for a wheel alignment and balance and get them to do a complete wheel alignment check for both the front and back wheels and ask for a printout of the measurement. This should provide, camber, castor and other angles.
