Based on the science that shows that people middle-aged or older who solve word games and brainteasers have a significant cognitive advantage over those who do not, 399 Games, Puzzles & Trivia Challenges is the illustrated game book specifically created to cross-train the brain. Here are 399 games to stretch, challenge, and push the reader, all of which stimulate the formation of neurons—literally, regrowing the brain. Plus they're not only good for you, but just plain good—these games are fun. 399 Games, Puzzles & Trivia is a lively mix of challenges, riddles, and brainteasers—all vetted by a neuroscientist who specializes in aging brains and designed to work the six key areas of cognitive function that are vulnerable in normal aging: long-term memory, working memory, executive functioning, attention to detail, multitasking, and processing speed. The games are arranged from easiest to most difficult and are labeled according to which cognitive functions they exercise so they can be mixed and matched into a custom “workout.” In just 15 minutes a day, anyone can improve his brain's strength, flexibility, and long-term health.

Do you have students who are far ahead of their peers in math? Are you a teacher who differentiates for those students by giving them additional topics, but without knowing what topics they have already covered over the past years and without a plan for the topics they should cover in the next years? Are you a head of department, who wants to streamline differentiation throughout your math department to ensure talented students have a more uniform experience as they move from teacher to teacher and have a goal they are working towards year after year? Are you a principal who wants to improve the results of your students in HL Math and to have students from your school start succeeding in HL Further Math? If so, this book describes a program to prepare IB Middle Years Program (MYP) students to enter the Diploma Program (DP) taking HL Further Math as their only math course. The program is modeled on the ATYP program from Kalamazoo MI started by Carol McCarthy.
