Absent pushback from the West, Turkish foreign and security policy will reflect Erdoğan's worldview for decades to come. The United States and the European Union should, in response, work together to discourage the Turkish president from continuing to play a destabilizing role in NATO's southeastern flank.

The authors describe the challenges and opportunities facing Turkey in the international environment during a time of extraordinary flux. Special emphasis is given to the strategic and security issues facing Turkey, including a number of new issues posed by the terrorist attacks of September 2001 and the subsequent international response. They conclude by offering some prognostications regarding the country's future and their implications on Turkey's western partners.

the 20th century, this text not only charts underexplored periods in Turkish foreign policy history, but also offers a fresh analysis of recent events, with new challenges ever-emerging in this region. This volume is essential reading for students, scholars and professionals of International Relations, foreign policy and international law who would like to study Turkish foreign policy.

With the end of Cold War discipline the world has entered a new era. Parameters have changed; new handicaps as well as new opportunities have been created for countries. Turkey as a neighbor of former USSR, a member of NATO and located at the center of a sensitive region covered by Caucasus, Balkans and Middle East, has been affected by the end of Cold War radically. Turkey has lost some of her bargaining cards in the new era and therefore has needed new arguments. This need encouraged Turkey to take active steps in Post Cold War era. This book analyzes Turkey s relations with US, EU, Balkans, Middle East, Caucasus, Central Asia, Russia, China and Japan. At the same time, effects of economic crises and domestic developments on foreign policy, Turkish model in Turkish foreign policy, water conflict and Kurdish problem are analyzed as well. To conclude, it is possible to argue that although Turkey lost some of her bargaining cards in Post Cold War era, new developments

An assessment of Turkey's wartime diplomacy and its role in preserving the nascent Turkish state.

This revised and updated version of William Hale's Turkish Foreign Policy 1774-2000 offers a comprehensive and analytical survey of Turkish foreign policy since the last quarter of the eighteenth century, when the Turks' relations with the rest of the world entered their most critical phase. In recent years Turkey's international role has changed and expanded dramatically, and the new edition revisits the chapters and topics covered in light of these changes. Drawing on newly available information and ideas, the author carefully alters the earlier historical narrative while preserving the clarity and accessibility of the original. Combining the long historical perspective with a detailed survey and analysis of the most recent developments, this book fills a clear gap in the literature on Turkey's modern history. For readers with a broader interest in international history, it also offers a crucial example of how a medium sized power has acted in the international environment.

By using the core insights of the constructivist approach in International Relations, this book analyzes the foreign policy behavior of Turkey. It argues that

In the context of rapid developments in Turkey and its broader geopolitical environment over the past decade, this book examines and conceptualises Turkey's changing foreign policy towards a more assertive and revisionist paradigm. More specifically it details the rhetorical and practical-political content of what is termed 'Lausanne Syndrome'; namely, Turkey's efforts in recent years - under the AKP government - to revise the geopolitical status quo brought about by the Treaty of Lausanne (1923) in its broader neighbourhood. By employing a Neoclassical Realist theoretical framework and paying particular attention to ideational factors, the book argues that, contrary to the more widely known 'Sèvres Syndrome', which predicts a more cautious brand of Turkish

foreign policy, the 'Lausanne Syndrome' is associated with a different political-ideological current and predicts a more revisionist type of foreign policy behaviour, even though it has emerged out of the same historical circumstances and been triggered by the same external geopolitical factors. The impact of the 'Lausanne Syndrome' on Turkey's foreign policy behaviour is subsequently tested in four case studies from the Eastern Mediterranean and the Middle East: Cyprus, Libya, Syria, and Iraq.
