the authors of what patients teach provide a framework in which to focus on the everyday experience of health care from the perspective of patients this paper argues that their effort to promote the cultivation of the skills essential to relational and patient centered care should be supported to improve care for all patients including patients with disabilities attention to the ethical

~~what patients teach the everyday ethics of health care~~

Being a patient is a unique interpersonal experience but it is also a universal human experience. The relationships formed when we are patients can also teach some of life's most important lessons, and these relationships provide a special window into ethics, especially the ethics of healthcare professionals.
